

October Newsletter

We will be working on our Hopi and Iroquois tribes unit and the dioramas. Student dioramas will be on display in the library when completed.

Third graders have taken the Cognitive Ability Tests the week of October 11 through October 15. Thanks for sending the nutritious treats.

In math, the students will be working on adding and subtracting two-digit and three-digit numbers with adding across zero. We will also be adding and subtracting money.

We are working on combining two sentences with a comma and the word “and.” We continue to work on identifying the subject and the predicate of a sentence. Proper and common nouns will be introduced.

We will have our Halloween parties on Friday, October 29, 2010. Our parties will start after the 2:15 recess. Costumes and make-up need to be brought to school in a bag. Your child is encouraged not to wear their school-appropriate costume and make-up to school.

Mr. Pusateri
