

September 7, 2010

Parents and Guardians,

In the coming weeks, the art teacher, Ms. Kling will be guiding us in the construction of a Hopi Village diorama or an Iroquois Village diorama during Art class. Please send one shoe box with your child for their diorama. We will start working on the diorama soon.

We have been using the FOSS (Full Option Science System) kit for the human body. This kit introduces the students to bones, joints, muscles and coordination.

We have changed our spelling lists this year. We will not longer test students over the last five Challenge words on the spelling list. The Challenge words are presented in our weekly story and guided-reading stories. Your child will be tested over the first 15 spelling words.

We are encouraging third grade students to be responsible by turning in homework on time, writing in their assignment book, getting a parent signature in the assignment book each day, returning their AR book, and being a good listener.

Mr. Pusateri

Mrs. Shay
