

November, 2010

Greetings!

I would first like to thank those of you who sent treats for our Halloween party. We had a nice time and some yummy snacks! The parade was fun, too.

I hope everyone had a chance to view their child's report card. Those were sent home earlier this week. If you have questions about them, please call school or send a note in your child's planner.

We are now working on our second term for reading goals. Please encourage your child to read at home. More practice in reading leads toward improvement!

In math, we are starting on the basic math facts. Please review these "Muskie Math" facts with your child when you have time. Our current chapter in our book covers time and graphs. We might survey you soon about different topics, so be ready!

The students are enjoying our hands-on FOSS Kits of "Earth Materials". They will be experts soon on mineral testing, identifying groups of rocks, and so on. We will even write a story next week during language about a rock that comes to life!

Our student teacher, Mrs. Ford, is doing a fine job. The children really enjoy having two teachers. Be sure to stop in and meet her!

Mrs. Pusateri
